DR. PHILIP L. FAVA TO CONTRIBUTE TO 2019 DENTAL GUIDE

Philadelphia, PA, June 25, 2018: Philip L. Fava II, DMD, MDSc, co-director of the Philadelphia Center for Dental Implants and Periodontics, has been asked to contribute to a book with colleague Dr. P.D. Miller from Memphis, Tennessee. Dr. Miller is best known for the ***Miller-McEntire Prognosis Usage in Dental Practice***, an evidence-based scoring system designed to help dental professionals determine the health of the patient's entire mouth by examining molars and rating them with scoring indexes based on statistical analysis.

The book, to be published next year by another colleague, Dr. Sal Nares, Chair of Periodontology and Implantology at the University of Illinois, will provide a comprehensive guide to periodontal diagnosis and treatment.

Dr. Fava serves as a peer instructor at University of Pennsylvania School of Dental Medicine and served as clinical instructor at the University of Connecticut School of Dental Medicine where he completed his specialty residency in Periodontics with a Masters in Dental Science.

He is a Fellow of the International Team for Implantology (ITI) and serves as President of the **Eastern Dental Society**, a dental study club composed of professional dental leaders from both Pennsylvania and New Jersey.
