***Our Doctors Were Named Philadelphia Magazine Top Dentists— Again!***

***Philadelphia, PA, September 28, 2018:*** We're both thrilled and honored to announce that our co-directors, Dr. Fava and Dr. Levine, have both again been named [Philadelphia Magazine's](#) "Top Dentists" in the field of periodontics for 2018. The Pennsylvania Center for Dental Implants and Periodontics has received this designation since the magazine began the award process in 2010.

Winners are peer-selected, with more than 5,000 votes cast and top vote-getters reviewed by a dental advisory board.

Dr. Fava and Dr. Levine's professional dental expertise is fully complemented by their commitment to patient satisfaction and comfort. If you'd like to learn more about our offerings at the Pennsylvania Center for Dental Implants and Periodontics (dental implants, laser treatments for gum disease and so much more!) call us today at 215-677-8686.
